## #33. Nothnagle Realtors *in America!*

REALTOR® Magazine recently released their annual "Top 100" report which ranks brokers from across the country based on 2008 sales.

With 8,415 transactions last year, Nothnagle Realtors ranked 33rd on the list. This is a move up from last year's report which ranked us 36th. While 2008 was a difficult year for the real estate industry, Nothnagle's market participation hit an all-time high.

Even more significant, Nothnagle agents ranked 10th on the list in terms of productivity. The list measures "average transactions per agent," and Nothnagle had among the highest averages of all firms on the list - and the highest of any local competitor.

Nothnagle is unique among many of the survey participants in that our business is based entirely in the

Greater Rochester market, versus brokers who are spread among multiple cities or are doing business in markets with much higher median sales prices.

### GET MORE with Nothnagle Realtors
